

[IGT Job Opportunities] Climate Citizen Team Communications Officer (career, contract/full-time)

IGT studies the transformation of nations, regions, economies, and lives in the age of climate crisis.

Solving the climate crisis requires fundamental change. The existing socioeconomic system, which relies on fossil fuels in pursuit of unlimited economic growth, cannot change the game.

That's why IGT seeks to invent and spread a new society and way of life that can live with nature within the ecological limits of the planet. It aims for field-based, practical research and proposes policies that are both radical and applicable to the real world.

He is currently conducting research on realizing welfare based on the donut economy model, expanding green jobs, preparing measures to support corporate carbon neutrality, and expanding renewable energy.

If your heart beats for the work of IGT as we design new ways of life and economic activity for a sustainable future, we invite you to join us on our journey.

Climate Citizen Team Communications Officer

[👤 You'll be doing "stuff like this" mostly].

- Disseminate climate policy to media and key stakeholders
- Designing campaigns to popularize climate policy
- Create and support communication strategies with key stakeholders (media, professional groups, NGOs, etc.)
- Disseminate your organization's research findings to national media
- Build and spread networks for policy impact

Prerequisites

[🙏 I 'definitely' want to work with someone like this].

1. At least 7-10 years of experience in one of the following roles
 - a. Experience working in national media
 - b. Experience working in external affairs (government affairs, public affairs, corporate affairs, etc.)
2. Ability to collaborate and communicate with diverse stakeholders
3. Ability to work independently, proactively, and in teams

Preferential conditions

[🧠 If this is you, you're 'even more' welcome].

1. Careers in journalism, politics and industry
2. At least a master's degree in politics or communications

Working Conditions

- Contractor/Full-time
- Location : Hapjeong-dong, Seoul
- Salary: We will offer based on experience and working conditions.
- Start Date: Negotiable
- This position is part of IREX's Climate Communication Fellowship (CCF). The CCF is a program that supports communications professionals to work at climate policy think tanks in Asia. The successful candidate will automatically become a Fellow of the Fellowship and, in addition to working at the Institute, will receive training on environmental and climate change issues, coaching and leadership development, and be part of a network of similarly situated professionals in Asia. (IREX is a global nonprofit organization that has supported more than 50,000 Fellows over 50 years).

Support Calendar

You'll join us by following the steps below.

- Document screening (1/13 Monday - 1/24 Friday at midnight): We'll review your documents carefully to get to know you.

Even during the application period, interviews and hiring procedures may be conducted at any time if there are suitable candidates.

- Interview screening (date to be negotiated): A panel of interviewers from IGT will interview you about your experience and fit with the organization. The interview will include a presentation of the English summary you submitted (approximately 10 minutes). The interview will be conducted face-to-face and the total estimated time required is approximately 1 hour.

- Final acceptance announcement: Successful applicants will be contacted individually.

- First day of work: To be negotiated.

Supporting Documents

To get to know you better, we'll need the following documentation

(As we will be working with IREX, our partner organization for this position, we are requesting application materials in English)

1. resume in English (required)

2. Cover letter (in English, required): Please feel free to introduce yourself, including answers to the questions below.
 - Question 1. Who are you?
 - Q 2. What are you most looking forward to experiencing at IGT?
3. Research paper (required): Write a research paper on the topic below
 - Strategies for moving climate policy up the political agenda
4. Personal Information Collection and Use Agreement for Job Application (required): Please download the attachment on the homepage, sign and submit.
